Information submitted as a comment in response to this Notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information (CBI)." Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public docket. Information not marked confidential will be included in the public docket without prior notice. The public docket and docket index will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

To request a copy of any of the above listed RED documents, or a RED Fact Sheet, contact the OPP Pesticide Docket, Public Response and Program Resources Branch, in Rm. 1132 at the address given above or call (703) 305-5805.

Electronic copies of the REDs and RED fact sheets can be downloaded from the Pesticide Special Review and Reregistration Information System at 703-308-7224, which also can be reached on the Internet via fedworld.gov and from EPA's gopher server, gopher.epa.gov.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticidal active ingredients listed above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of each of the chemicals listed above is substantially complete. EPA has determined that all currently registered products subject to reregistration containing these active ingredients are eligible for reregistration.

All registrants of products containing one or more of the above listed active ingredients have been sent the appropriate RED documents and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt.

Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the RED. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the **Federal Register**.

E.I. du Pont de Nemours & Co., Inc; Establishment of a Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established a temporary tolerance for residues of the herbicide Staple *pyrithiobac-sodium* derived from its application in or on the raw agricultural commodity cottonseed at 0.02 parts per million (ppm).

DATES: This temporary tolerance expires March 31, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Cynthia Giles-Parker, Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401

M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5540.

SUPPLEMENTARY INFORMATION: E.I. du Pont de Nemours & Co., Inc., Barley Mills Plaza, Walker's Mill, P.O. Box 80038, Wilmington, DE 19880-0038, has requested in pesticide petition (PP) 3G4244, the establishment of a temporary tolerance for residues of the herbicide Staple *pyrithiobac-sodium* derived from its application in or on the raw agricultural commodity cottonseed at 0.02 parts per million (ppm). This temporary tolerance will permit the marketing of the above raw agricultural commodity when treated in accordance with the provisions of the experimental use permit 352-EUP-162, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that establishment of the temporary tolerance will protect the public health. Therefore, the temporary tolerance has been established on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. E.I. du Pont de Nemours & Co., Inc. must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This tolerance expires March 31, 1997. Residues not in excess of this amounts remaining in or on the raw agricultural commodity after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary

tolerance. This tolerance may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

FMC Corporation; Applications to Register Pesticide Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of applications to register pesticide products containing an active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by April 7, 1995.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP-30381] and the registration/file number, attention Product Manager (PM) 23, to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401

M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI).

Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: PM 23, Joanne I. Miller, Rm. 237, CM #2, (703-305-7830).

SUPPLEMENTARY INFORMATION: EPA received applications as follows to register pesticide products containing an active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

Products Containing an Active Ingredient Not Included In Any Previously Registered Products

1. File Symbol: 279-GRUO Applicant: FMC Corporation, 1735 Market St., Philadelphia, PA, 19103. Product name: Sulfentrazone Technical. Herbicide. Active ingredient: Sulfentrazone, *N*-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1*H*-1,2,4-triazol-1-yl]phenyl]methanesulfonamide at 91 percent. Proposed classification/ Use: None. For formulating use only on soybeans. Type registration: Conditional. (PM 23)

2. File Symbol: 279-GRUA. FMC Corporation, 1735 Market St., Philadelphia, PA, 19103. Product name: Sulfentrazone 4F. Herbicide. Active ingredient: Sulfentrazone, *N*-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1*H*-1,2,4-triazol-1-yl]phenyl]methanesulfonamide at 39.6 percent. Proposed classification/ Use: None. For the control of broadleaf weeds, grasses, and sedge when applied preplant and preemergence on soybeans. Type registration: Conditional. (PM 23)

3. File Symbol: 279-GRUI. FMC Corporation. Product name:

Sulfentrazone 75DF. Herbicide. Active ingredient: Sulfentrazone, *N*-[2,4-dichloro-5-[4-(difluoromethyl)-4,5-dihydro-3-methyl-5-oxo-1*H*-1,2,4-triazol-1-yl]phenyl]methanesulfonamide at 75 percent. Proposed classification/ Use: None. For the control of broadleaf weeds, grasses, and sedge when applied preplant and preemergence on soybeans. Type registration: Conditional. (PM 23)

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operation Division office at the address provided from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. It is suggested that persons interested in reviewing the application file, telephone the FOD office (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.
